

numax **Wean**

numax range piglet feeds (numax Start, numax Wean and numax Link) are designed to enhance high feed intakes from the very early days of a piglet's life. The unique formulation of the feeds provides exceptional results under various field conditions.

nuevo
ANIMAL NUTRITION

ZERO ZINC CONCEPT

The **numax range** piglet feeds are designed to tackle ZnO elimination and enable piglets handle post weaning metabolic disorders. Based on low dietary protein levels but in parallel with a carefully balanced SID amino acid profile ensures high growth rates from the very early stages of a piglets' life. Carefully selected ingredients with high digestibility will guarantee early feed intakes thus proper gut maturation and a healthier digestive tract.

DUAL FORM

numax Wean is provided in a meal form with well-dispersed whole flakes. A meal offers extra benefits over pellets for young piglets, because it has been shown to reduce the incidence and prevalence of diarrhea due to reduced liquidity in the gastrointestinal tract. **numax Wean** is also available in a pellet form.

GUT HEALTH

numax Wean contains ingredients that regulate gut micro flora, functional fibres and a powerful combination of organic acids with very strong antibacterial activity.

MILK & SUGARS

High levels of lactose from high quality dairy products and simple sugars ensure pigs will start consuming early, large quantities of feed due to the natural sweet taste of **numax Wean**.

EXTRUDED FULL-FAT SOYBEANS

With very low levels of antinutritional factors, full of highly digestible oil, and highly digestible protein, extruded soybeans are an excellent choice source of protein for piglets.

COMPLETE IN ALL

numax Wean is a complete feed. It contains all required nutrients for suckling and weaned pigs. In addition to balanced levels of energy and protein, it contains the full complement of vitamins, minerals, amino acids and enzymes.

KEY NUTRIENTS

Net energy	10.6 MJ/kg	SID lysine	1.275%
Protein	19%	Calcium	0.75%
Fats	5.1%	Av. Phosphorus	0.38%
Fibre	3.1%	Sodium	0.25%

GENERAL FEEDING INSTRUCTIONS

numax Wean is designed as a follow-up feed to **numax Start**. Start feeding **numax Wean** immediately after finishing with **numax Start**. There is no need to mix the two feeds for the changeover. Allow 4-6 kg **numax Wean** per piglet until they reach 12kg body weight.
